### Modalities of the contract

Contractnumber: .....

This document serves as acceptance of the PROTECTIONS group policy (taken out with AG) and the various options that have been taken out (based on the customer's statements as part of the needs analysis).

The common conditions in the General Terms and Conditions for the PROTECTIONS group policy as well as the General Terms and Conditions and the limits of intervention for the options that have been taken out are available from both the travel intermediary and on the website [www.koksijdeholiday.com](http://www.koksijdeholiday.com).

The premium includes a 26% acquisition fee and a 4% administrative fee\* (maximum percentages). In signing or paying the premium, the customer acknowledges that s/he has read the IPID sheet, the General Terms and Conditions and the limits of intervention prior to taking out the policy and accepts the policy Terms and Conditions without any exceptions or reservations.

*\* Note that if you are planning to compare different insurance policies, you should look beyond the estimated premiums and charges and take other issues into account, such as the scope of coverage, the applicable deductibles and the policy exclusions. The estimates above provide greater clarity into the portion of the premium set aside to cover the perils detailed in the insurance policy. The remainder, less taxes and contributions as well as acquisition and administrative fees, represents the portion of the premium earmarked to provide the services stipulated in the policy and to cover other costs not specified above (including the aggregated and mutually shared costs of insurance claims and the claims handling process). These estimates have been calculated based on the insurance company's financials from the last fiscal year, as approved by a Belgian-accredited independent auditor.*
